

i have xm radio and i listen to the traffic and weather every day on my way home from work. i can't always find a traffic report when i listen to fm or am stations. i enjoy the option to have reports available to me when ever i need them. the only time traffic is broadcast with any frequency is during rush hour and broadcast doesn't care about any other time of the day. please keep the xm traffic and weather stations, it doesn't take away listeners from broadcast, just gives them another option.

Thank you,

Bryan Lane
